To gain points in the Series, competitors must be a paid member of **PBDRG. Points accumulate from date of membership – not the start of the season**

Should an event be abandoned at any time after qualifying has been completed but before the first round of eliminations for all classes, then entry and qualifying points will be awarded to competitors. Where not all competitors in a round of racing have not faced the starter at the point of abandonment of the event, no points will be allocated from that round. Points allocation in these instances will revert to the previous complete round of racing.
